

To Do for 05.12.24

- Continue with Altium Tutorials → try to get through them
- Brainstorm how we can properly hold the PCB card to the inverter
- Clearly document & summarize the function of all the signals & the role each circuit components are playing
 - ↳ LTSpice Simulation if necessary
- Learn how to do LTSpice Simulation properly.
- Read rest of Chapter 4 Op-Amps Bible
 - Also Kickback Voltage of Bible S.380
 - ↳ LTSpice Simulation for ADC part.
- Contact Sentech to get the counterpart of the 160, → 120 signal connector
