

To Dos for 21.11.2024

- Read Bible Ch. 4 (up to 4.2.3 & include 4.4)
 - Look into Nyquist-Shannon Theorem, Anti-aliasing Filter
 - Ch. 1 as well, basics
 - Gains.
- Simulate Current Sensing & DC-Link using LT-Spice (800V input)
 - ↳ probably will be able to find the same Op Amp
- Compile Excel Sheet of all the signals & requirements
 - I/O in perspective of inverter
 - Digital / Analog, Voltage, Pin number, Bandwidth
 - ↳ especially current sensing
 - ↳ Nominal usage ratings
- Define Voltage level we will use in our interface
 - TTL 3.3V.
